Dear Colleagues

Core Valley Lines (CVL) No Material Effect Notice CVLNME004 - Wales & Western Sectional Appendix Table A Correction (GW830)

This Notice outlines Seilwaith Amey Cymru / Amey Infrastructure Wales (AIW)'s proposal to correct a drafting error in the Wales and Western Sectional Appendix Table A (Line of Route GW830 Sequence Number 001 & 002). The proposed correction is shown in Annex 1, to this Notice.

There are no proposed changes to the operation of the network, as a result of the proposed correction, where the Route Availability was erroneously published as "RA8" instead of "RA6".

The marked changes will be published on or after a period of one calendar month, from the date of this Notice, to permit comment from any CVL Access Beneficiaries or interested parties.

AIW believes that this proposal will have no material effect upon the operation of the network or of trains on the network and, as a result, will not be proposing formal CVL Network Change, as defined in Part G of the CVL Network Code.

If I do not hear from you by **24th July 2026**, I will assume that you accept AIW's position. Please do not hesitate to get in touch should you require any further information.

Your faithfully,

Gary Davies-Knight
