

## **Register of Interests for the Board Members of Transport for Wales**

April 2019

The Register is based on five categories of interest:

- **Category 1 - Other employment including other Non-Executive and equivalent roles** – all interests, paid or unpaid, current and at least dating back 5 years, to be registered of the Board member and close family (partners, children, parents and siblings) or members of the household.
- **Category 2 - Business involvement including land and property** – any interest of the Board member and close family (partners, children, parents and siblings) or members of the household to be registered, where there are currently or potentially business interactions relevant to TfW's role and remit.
- **Category 3 - Companies and securities** - any interest of the Board member and close family (partners, children, parents and siblings) or members of the household to be registered, where the companies or securities held are currently or potentially relevant to TfW's role and remit.
- **Category 4 - Memberships** - any interest of the Board member and close family (partners, children, parents and siblings) or members of the household to be registered, where the organisations for which memberships are held are currently or potentially relevant to TfW's role and remit.
- **Category 5 - Any other interest** – where the Board member wishes to declare any other interest at their own discretion (e.g. financial interest, political interest).

For Category 1, historic interests (within the last 5 years) should be registered. For all other categories, only current interests are required to be registered.

This Register is consistent with the registers and forms used elsewhere in the public sector. The Register will be kept under review by the Board Secretariat.
